LEONARDO

GLASLIEBE. PER SEMPRE.

SPECIALE 2018

UNIQUE HIGHLIGHTS FOR AUTUMN

With an exclusive special collection of premium vases and lanterns, LEONARDO is bringing even more colour and quality to the autumn range.

The products in the new series not only work on their own, but also as a set with a character all their own. The colours and shapes are in line with current autumn trends. The special production process along with high quality coloured glass make every piece a true one of a kind. The collection is specially designed for customers who want something exceptional and unique.

With this series, LEONARDO is emphasising new features, to enhance the autumn collection with eye-catching premium products with a one-of-a-kind feel. This is effectively increasing the value of the other season highlights, as well as triggering follow-up purchases.

SPECIALE 2018

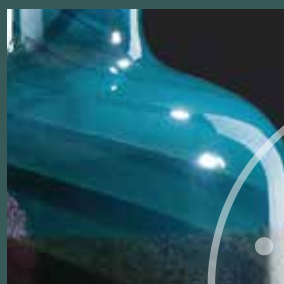

HARMONIOUS & MULTIFACET- ED FROM EVERY PERSPECTIVE

The hand-finished pieces in this series are manufactured using traditional craftsmanship such as the lustre technique. This creates a fascinating metallic look on the slightly reflective surface of the glass. The effect has a unique impact time and again as it catches the light.

All products are perfectly suited to be displayed with flowers or on their own as decorative pieces.

The combination of different forms and real stained glass creates new effects time and again.

Because they are hand crafted, every object is one of a kind with unique characteristics to be found in every detail.

Handcrafting processes like the lustre technique are over 1000 years old and are finding a new lease of life in this series. The use of wooden bases highlights the autumn theme and presents an even more natural feel, interplaying with the premium glass creations..
